Attached is the spreadsheet of sample log sheets entered today. Please notice that there are log sheets that have not yet made it to this spreadsheet. The columns that contain information regarding distance to Animas River are Columns AW, AX and AY. You can filter this columns according to the information you need for tomorrow.

I did a quick filter and I came up with a total of 44 places within 500ft or less from Animas river.

If the log sheets did not contain information regarding distance to river, those columns were left blank.

Mrs. Jenna, the spreadsheet you sent me contain 8 addresses that have not yet made it to our spreadsheet, but they will be enter as soon as tomorrow. All the rest have been captured in the spreadsheet attached. Those 8 addresses are as follow:

Last      First      Mailing      Well

Name   Name   Address   Address

Citizen Name/Ex. 6	<b>Wells/Ex. 9</b>
--------------------	--------------------

Aztec  
Aztec

I hope this helps,

Thank you.
